Powering a sustainable energy future

Gastech is the world's largest exhibition and conference for natural gas, LNG, hydrogen, climate technologies, and AI in energy.

In 2025, the event will bring together **more than 50,000 professionals** from across the global energy industry, offering visitors a unique opportunity to explore developments, connect with industry leaders, and understand the technologies shaping tomorrow's energy systems.

As a visitor, you will have access to **1,000 exhibiting companies**, representing the entire energy value chain, and dedicated industry areas focused on **Hydrogen, Climatetech, AI::Energy**, and **Shipping & Marine**.

Whether you are involved in operations, strategy, procurement, or innovation, Gastech provides a focused environment to meet peers, identify new suppliers, and stay informed on the ideas and technologies driving change in global energy.

Reasons to attend Gastech 2025

1

Source thousands of energy products and solutions

Connect with over 1,000 exhibitors at Gastech 2025 and discover the latest innovations in the energy sector. This is your chance to discover what is new across the energy value chain and engage directly with leading technology providers and transformative start-ups shaping the future of energy.

2

Meet the people shaping tomorrow's energy systems

Experience Gastech, where you can engage with a diverse network of global decision-makers, technical experts, and innovative thinkers from the entire energy value chain. With over 50,000 attendees, 7,000 delegates, and over 1,000 exhibitors from 150 countries, Gastech offers a unique opportunity to participate in meaningful discussions, forge valuable partnerships, and gain essential market insights.

3

Explore four specialised industry areas

Navigate four dedicated industry areas for AI::Energy, Hydrogen, Climatetech, and Shipping & Marine. Each specialised area highlights cutting-edge technologies, delivers tailored insights and connects you directly with key innovators and market leaders.

4

Engage in international collaboration

With 20 international country pavilions, Gastech is a hub for cross-border collaboration. The event acts as a catalyst for global partnerships that promote policy alignment, technology transfer and investment in low carbon energy solutions.

5

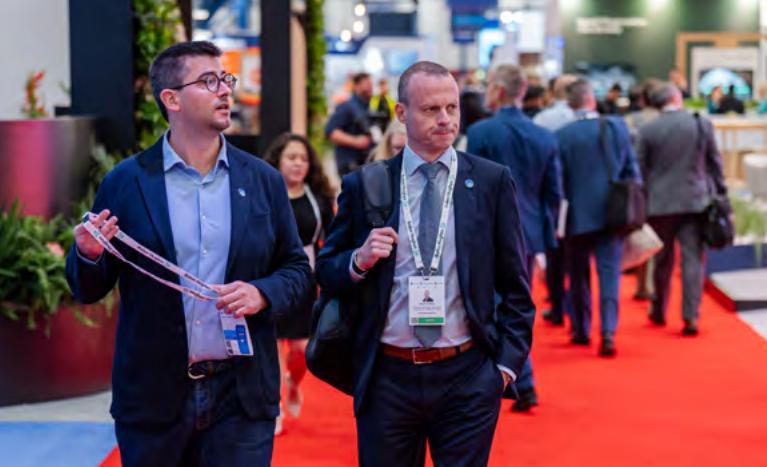

Access complimentary conference programmes

Your visitor pass includes access to a range of curated programmes that highlight breakthrough ideas and support inclusive dialogue across the industry. These include the Inclusion & Diversity programme, AI::Energy Spotlight sessions, the Supply Chain & Procurement programme, and the Gastech Innovation Accelerator, each providing a unique perspective on progress, participation, and innovation in the energy industry.

REGISTER AS A VISITOR

Your Gastech visitor journey

Your complimentary visitor pass unlocks a dynamic experience of insight, innovation, and connection.

PLAN

your experience with the Gastech Mobile App.

Start your journey before you even arrive. Use the official app to explore the floorplan, identify must-see exhibitors, bookmark sessions, and schedule meetings with suppliers, partners, and peers.

EXPLORE

the Gastech Exhibition.

Navigate the most comprehensive showcase of solutions across natural gas, LNG, hydrogen, climate technologies, and AI in energy. With 1,000 global exhibitors and four dedicated areas, the exhibition is your gateway to breakthrough innovations and new commercial opportunities.

ENGAGE

with specialised industry areas.

Delve into focused content and live demonstrations in the **Hydrogen, Climatetech, AI::Energy**, and **Shipping & Marine** areas. Gain first-hand insights into the technologies, partnerships, and trends transforming the global energy system.

REGISTER AS A VISITOR

gastechevent.com/visit/visitor-registration/

CONNECT

with energy professionals from over 150 countries.

Meet decision-makers, technical experts, and innovators across the energy value chain. Whether you are sourcing new partners or exchanging ideas, Gastech offers a uniquely international environment to build relationships that matter.

LEARN

from free-to-attend programmes and features.

Join live Spotlight Sessions, expert-led showcases, and special programmes including **Inclusion & Diversity, Supply Chain & Procurement**, and the **Gastech Innovation Accelerator**. Stay ahead of trends and hear from the voices shaping the future.

EXPERIENCE

a platform built for progress.

Every step of your journey at Gastech is designed to help you discover opportunity, exchange knowledge, and leave with new ideas to take back to your organisation.

Meet the companies shaping the future of natural gas and LNG

At the heart of Gastech is the global natural gas and LNG industry. As a visitor, you will connect with producers, LNG exporters, infrastructure developers, and technology providers from across the global energy value chain.

With more than 1,000 exhibiting companies, the exhibition offers a direct window into the strategies, technologies, and partnerships driving secure and lower-carbon energy worldwide and shaping the future of energy.

Companies participating at Gastech include:

Discover sustainable industry growth through international partnerships

Gastech 2025 will feature **20 international country pavilions**, reinforcing its role as a platform for cross-border collaboration and policy dialogue in the global energy sector.

These national pavilions support a more integrated energy ecosystem by encouraging innovation, sharing best practices, and enabling investment in sustainable industry growth.

Country Pavilions will include:

Discover how AI is transforming global energy systems

AI::Energy, powered by Gastech, will showcase the use of AI in the energy sector and address the growing energy demand associated with the increasing number of AI data centres.

Through a dedicated exhibition area, product displays, conference programmes and tailored networking opportunities, AI::Energy explores the energy industry's future and the technology transforming the sector.

A glowing blue wireframe brain is positioned on a dark, detailed circuit board. The brain is connected to the board by several vertical lines, symbolizing the intersection of artificial intelligence and technology.

Hydrogen

Meet the innovators driving hydrogen's rise in the energy landscape

Hydrogen, powered by Gastech, is dedicated to promoting the role of hydrogen in the global energy mix by highlighting the latest advancements in hydrogen technology and low carbon fuels.

This specialised area features an exhibition and dedicated Strategic and Technical Conference programmes focused on hydrogen's impact on the transformation of the energy industry. It also provides opportunities to explore the integration and effects of hydrogen solutions throughout the energy value chain through live demonstrations and product displays.

Uncover the innovations driving emission reductions

Discover solutions that provide tangible benefits across the gas and LNG supply chain. These innovations decrease emissions in production, improve energy efficiencies, and help decarbonise the energy value chain.

This specialised industry area features an exhibition, a Strategic and Technical Conference programme, and an innovation hub, all fostering strategic dialogue. It connects individuals investing in the rapid adoption of climate technology solutions to achieve a lower carbon energy future.

Networking Lounge

Your space for high-impact meetings.

The Gastech Networking Lounge is your dedicated space to turn conversations into partnerships. The lounge is located on the exhibition show floor and offers a private, professional environment with ready-to-use services for meetings arranged via the Gastech Network App.

Enjoy these feature programmes with your visitor pass

Supply Chain & Procurement Programme

Scaling a resilient and sustainable energy supply chain.

This feature unites procurement professionals and solutions providers to build partnerships, tackle industry challenges, discover new solutions and conduct business. The agenda includes discussions by procurement experts addressing key challenges and priorities within the global energy supply chain.

EXPLORE THE PROGRAMME gastechevent.com/exhibition/supply-chain-procurement-programme/

Inclusion & Diversity Programme

Inclusive Futures. Powering Progress.

The Inclusion & Diversity programme is designed to spark conversation and foster collaboration around talent. The programme brings together key influencers, decision-makers, and thought leaders to reflect on the importance of I&D in the industry.

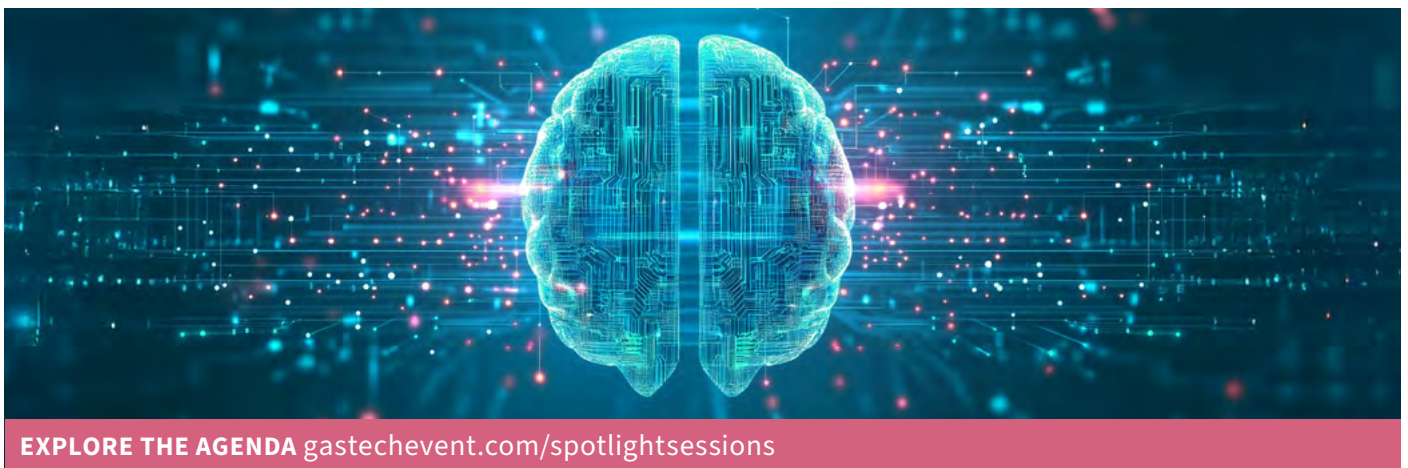

EXPLORE THE PROGRAMME gastechevent.com/visit/inclusion-diversity-programme/

AI::Energy Spotlight Sessions

Discover the latest advancements in AI technology.

AI::Energy Spotlight Sessions, led by top innovators, will showcase cutting-edge AI technologies and applications through real-world case studies and product demonstrations.

Gastech Innovation Accelerator

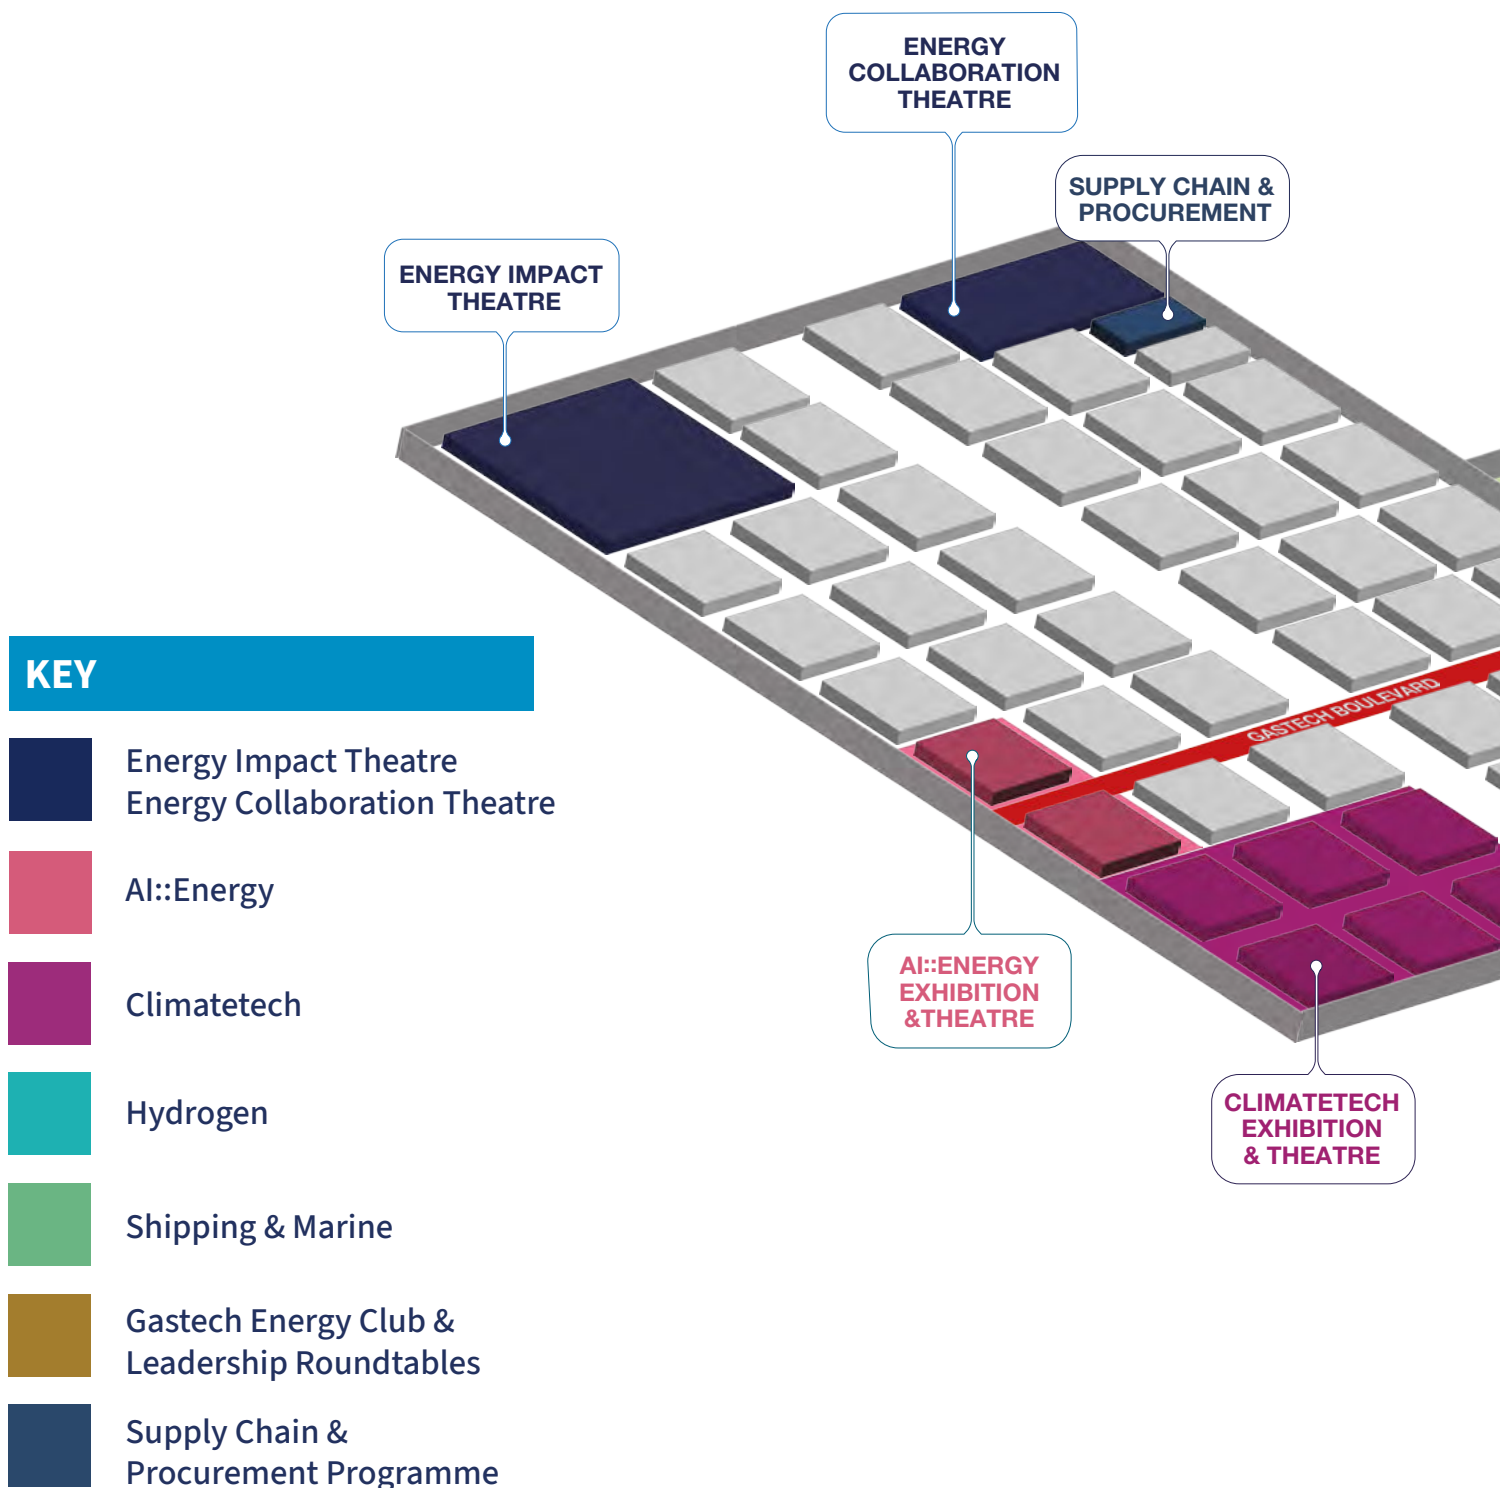

Discover new technologies driving the energy transformation.

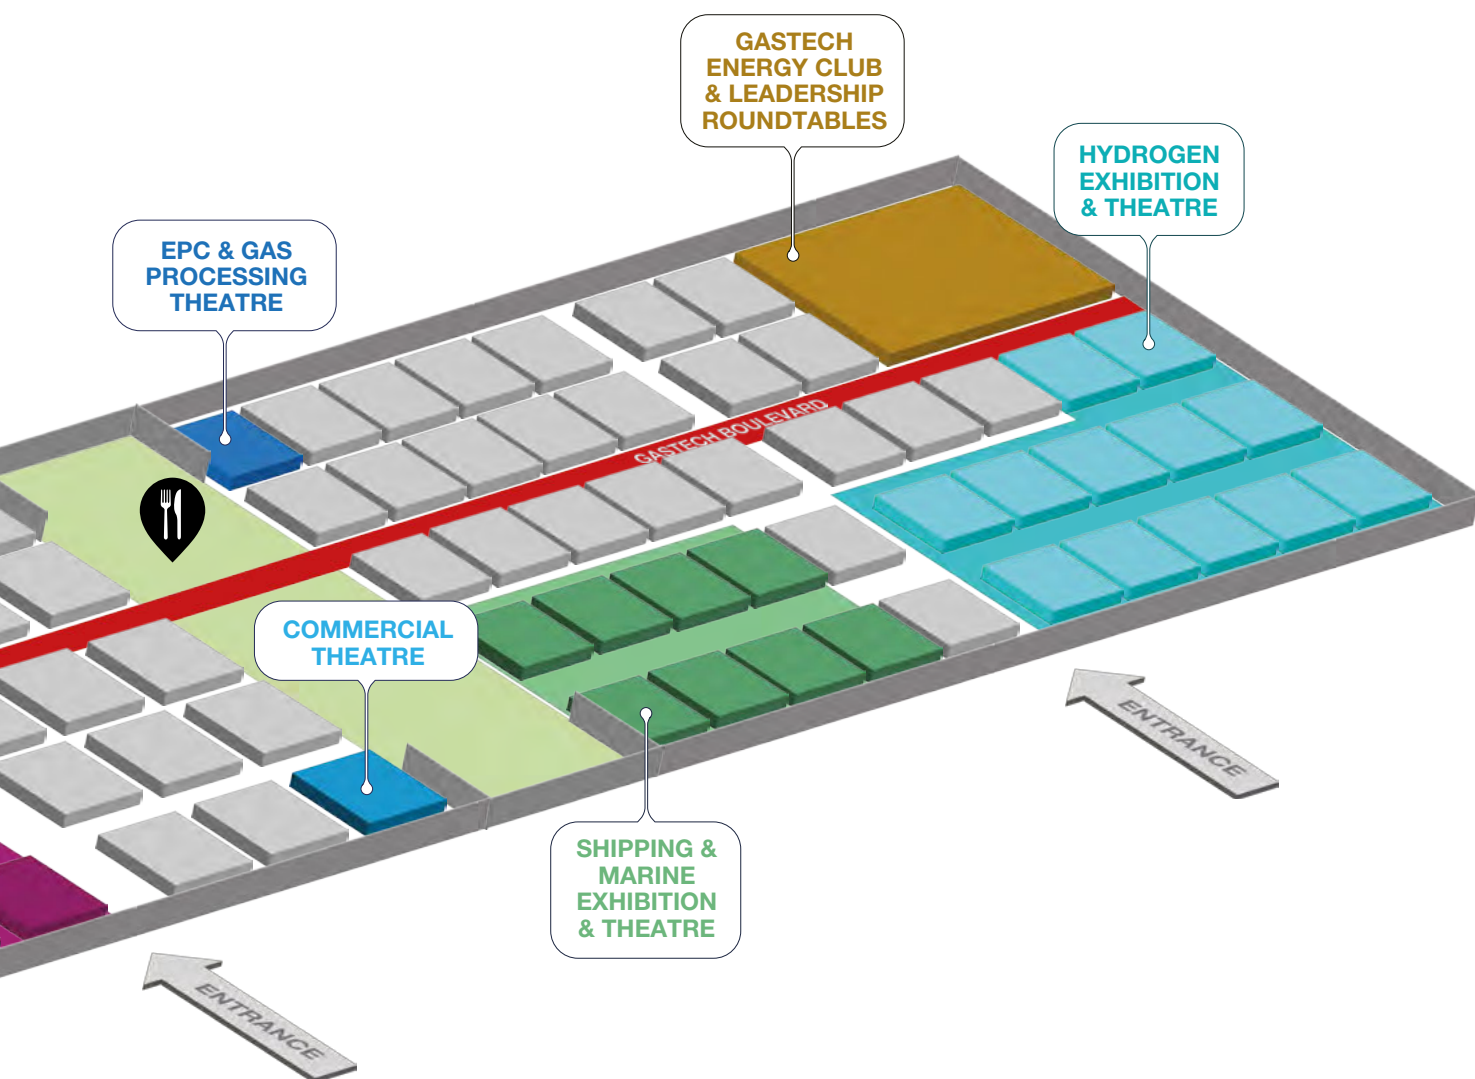

The Gastech Innovation Accelerator will bring together the brightest minds to revolutionise the future of energy and sustainability. This is a chance for startups to showcase groundbreaking technologies that can transform industries, reduce environmental impact, and accelerate energy transformation.

Travel tips

Located just outside central Milan, Fiera Milano is one of Europe's most accessible event venues, well connected by metro, rail, and road for seamless, low-impact travel.

By underground

The M1 red metro line offers a direct connection to the Rho-Fieramilano station, located adjacent to the exhibition centre. Services run frequently from central Milan.

FOR MORE INFORMATION, VISIT atm.it/

By train

Visitors can reach the venue via high-speed, regional, and suburban services to Rho Fiera station. Direct routes are available from key Italian and cross-border cities.

FOR MORE INFORMATION, VISIT trenitalia.com/en.html

By car

Fiera Milano is easily accessible via several major motorways, including the A52 (Tangenziale Nord), A50 (Tangenziale Ovest), A4 (Venezia), A8 (Varese), and A9 (Como). Over 10,000 parking spaces are available on-site for added convenience.

Strategic Conference

The Strategic Conference will provide critical insights into the evolving role of natural gas and LNG in ensuring energy security, supporting industrial growth, and enabling a lower-carbon future.

Across four programmes, the conference will explore how gas and LNG continue to serve as essential, flexible, and scalable solutions in today's complex global energy landscape.

It will also address the growing impact of climate technologies, AI, and the emerging role of hydrogen in advancing decarbonisation, alongside discussions on practical business models, investment strategies, and policy frameworks.

By aligning long-term climate objectives with near-term energy priorities, the Strategic Conference will offer pragmatic approaches to building a more secure, sustainable, and affordable global energy system.

Gastech Strategic Themes:

- 1 Amplifying the role of natural gas in delivering reliable, sustainable, lower carbon energy.
- 2 Capitalising on growth opportunities created by a transitioning global energy economy.
- 3 Mobilising and restructuring finance models to fast-track a next-generation global energy system.
- 4 Uniting cross-sector and cross-border partnerships to advance a new, integrated energy ecosystem.
- 5 Decarbonising the energy value chain with advanced climate technologies.
- 6 Unleashing the transformative power of hydrogen and low-carbon fuels.
- 7 Optimising energy transformation through AI innovation.

Technical & Commercial Conference

The Technical & Commercial Conference showcases pioneering ideas with the potential to drive scalable impact across the energy industry. The conference offers a window to a more innovative, sustainable, and lower carbon future, featuring the latest technology and research in natural gas, LNG, hydrogen, low carbon solutions, climate technologies, AI in energy, and shipping and marine.

Delegates will gain unparalleled insights into technical innovation and research that accelerates decarbonisation, advances project delivery, and develops scalable energy solutions for a lower-carbon future.

Want more from your Gastech 2025 experience?

Upgrade to a delegate pass

The Gastech Conferences provide a vital platform for the industry, fostering policy development, collaborative action, and knowledge sharing with the potential to drive technical innovation. These conferences are designed to support sustainable economic growth and deliver tangible global energy solutions. By aligning transformative innovations with robust policies and substantial investment, Gastech 2025 paves the way for meaningful change across the global energy system.

Why upgrade to a Delegate Pass?

Access Strategic Insights Firsthand

Gain entry to the full Strategic Conference programme, featuring 1,000 expert speakers and 160 sessions delivering high-level insights on global gas, LNG, and energy transition strategies.

Engage Directly with Policymakers and C-Suite Leaders

Participate in exclusive sessions where ministers, CEOs, and global decision-makers share market-shaping perspectives and practical policy approaches.

Stay Ahead of Industry Transformation

Hear how emerging technologies like AI, hydrogen, and climate tech are being adopted across the energy value chain — and how natural gas and LNG are evolving to meet new demands.

Network at the Highest Level

Gain access to delegate-only networking spaces and programming, designed to help you connect with project owners, senior executives, and strategic partners.

Turn Insight into Opportunity

Walk away with actionable intelligence, market forecasts, and business-critical updates to inform your strategy, investment decisions, and competitive positioning.
