What to expect at Gastech 2022

Gastech 2022, taking place 5-8 September in Milan, is the single largest global meeting place for the natural gas, LNG, hydrogen, and low-carbon solutions industry. Join 38,000+ energy professionals and 750+ international exhibitors for Gastech’s 50th anniversary edition.

Register now for your complimentary visitor pass and meet the entire energy value chain, under one roof. Access the latest industry knowledge, technical expertise, applications, products, solutions, and services.

Your visitor pass includes access to the Gastech and Gastech Hydrogen exhibitions. Upgrade to enjoy unlimited access to the prestigious Gastech strategic conference, opening ceremony, ministerial panels, global business leaders panels, Gastech Hydrogen Theatre, the Shipping and Marine Theatre, the EPC and Gas Processing Theatre, and premium networking opportunities.

- 38,000+ International attendees over four days
- 750+ Exhibiting companies from across the energy value chain
- 4,000+ Conference delegates
- 16 Energy Ministers speaking
- 200 Business and opinion leaders speaking
- 210 Technical and scientific experts speaking
Why attend?

Take your place alongside 38,000+ attendees and enjoy exceptional opportunities to:

1. Find new products, solutions and technologies from across the global natural gas, LNG, hydrogen, and low-carbon solutions value chain.

2. Meet like-minded energy professionals seeking conversations, collaborations and connections to address the challenges and opportunities created by the energy transformation.

3. Discover an unrivaled showcase of 750+ international exhibitors in a world-class business environment, leading the drive towards a cleaner energy future.

Gastech 2022 at a glance

There are more reasons to attend Gastech than ever before!
Your complimentary visitor pass will provide access to:

750+ international exhibitors
Meet 750+ international exhibitors from across the global natural gas, LNG, hydrogen, and low-carbon solutions value chain. Outdoor exhibition space will demonstrate lower-carbon technologies and mobility solutions. With 20 country pavilions, the show floor will have a truly international appeal, supporting an integrated world-class business environment.

Gastech Hydrogen Exhibition
Overcoming cost barriers will be critical to deploying hydrogen at scale, made more urgent by current geo-political instability. Gastech Hydrogen will showcase the technologies, innovations and contributions to the hydrogen value chain. Industry players driving the energy transition will demonstrate how hydrogen can play a role in rapidly delivering on climate commitments and reducing emissions, particularly in hard to abate sectors.

Low-Carbon Solutions Zone
Delivering the technologies, strategic thinking and solutions required to place emissions and carbon abatement at the heart of future business strategies, the Low-Carbon Solutions Zone will highlight cross industry collaboration, encourage knowledge sharing and give access to fast-track information on how best to commercialise emissions-reducing technologies.

EPC and Gas Processing Zone
Engineering, procurement, and construction (EPC) contractors and gas processing facilities have a key role to play in helping Western gas consumers to develop gas assets and diversify their gas supplies over the coming decade. The EPC and Gas Processing Zone will showcase cutting-edge technology and innovations in the natural gas sector.
Diversity, Equity and Inclusion in Energy

Supporting a more inclusive, diverse, and equitable energy sector. This free-to-attend programme will facilitate frank discussions about the make-up of the energy workforce, as well as providing practical advice on how to create a more diverse and inclusive workplace.

Future Leaders

The Future Leaders programme is limited to 300 recent graduates, MBAs and young energy executives with up to three years’ experience working in the energy industry. Supported by the Politecnico di Milano, this programme will highlight leadership opportunities available across the energy value chain and the skill sets needed to support our future global energy needs, as well providing insights into career paths throughout the industry.

Shipping and Marine Zone

The global maritime industry is facing a range of challenges stemming from geopolitical upheaval, new IMO regulations, technological evolution including AI, threats to global trade growth, and the need for greater sustainability. Gastech will be a key opportunity for the industry to navigate these challenges and secure the partnerships and investment to achieve regulatory compliance, supply chain resilience and emissions reduction targets.

Gastech LIVE

An opportunity for delegates to open their minds to leading-edge thinking, LIVE sessions provide a voice to net zero visionaries, experts, disrupters, and innovators beyond the traditional conference programme. The question-answer conversations and keynote presentations will address topics such as the millennial mindset and new ethical consumerism, the history and future of decarbonisation, and decarbonising a marquee industry.
Gastech 2022 will showcase 16 country pavilions

These pavilions provide an important focal point for national participation and enhance bi-lateral trade.

Networking opportunities

The Procurement Meeting Place

The Procurement Meeting Place will create a focal point for procurement within Gastech.

This feature will enable procurement experts to efficiently network, learn and discover new suppliers whilst also supporting the role smaller enterprises play within the energy value chain and helping SME exhibitors to maximise their return on investment.

Start-Up Zone

The Start-Up Zone will bring to Gastech Milan some of Italy’s most promising energy entrepreneurs, providing a unique platform to showcase to the world’s greater gathering of energy technologists, the Italian companies developing the next generation of energy transition solutions.

The Gastech Network

The Gastech Network is the official platform for attendees to navigate their Gastech experience. Features of the application include one-to-one networking and AI match making between exhibitors, speakers, and visitors; on-demand content comprising of conference sessions, onsite interviews, and downloadable resources; as well as the ability to personalise the conference agenda.

Gastech Networking Lounge

When pre-arranging onsite meetings on the Gastech Network, attendees are encouraged to conduct them in the Gastech Networking Lounge. The lounge offers a private, dedicated space to conduct business and includes ready-to-use services and amenities.

Gastech 2022 Floorplan

With over 750+ exhibitors, Gastech will showcase new global products, solutions and technologies across the global natural gas, LNG, hydrogen, and low-carbon solutions value chain. A large number of features will be positioned on the show floor, including dedicated industry zones, country pavilions and technical theatres.

Plan your visit
Gastech 2022 will take place at the Fiera Milano, in Milan, Italy.
Address: Strada statale sempione, 28, 20017 Rho MI

- **Underground**

- **Train**

- **Car**
  Motorway: A50 Tangenziale Ovest / A4 Venzia, A8 – Varese. A9 Como (fieramilano, Pero-fieramilano exits).

- **Airport**
  Bus from Linate. Malpensa and Orio al Serios airports.
Upgrade to a delegate pass to access the Strategic Conference

Redefining the energy landscape

The Gastech 2022 Strategic Conference fosters pragmatic dialogue between industry, government, finance, and technology leaders to galvanise strategies and business models that will influence the future of energy production, supply and use over the next decade and beyond.

The Strategic Conference will focus on the following themes:

1. Energy market megatrends
   Discussing pressing geopolitical, macro-economic and societal issues; showcasing industry versatility during unpredictable times.

2. Energy transition and the net zero agenda
   Balancing priorities as the supply pinch unfolds; developing low-carbon solutions for the future health of the planet.

3. Project funding and investor activism
   Unblocking the pipeline of vital hydrocarbon projects; championing industry climate commitments.

4. New operational realities
   Managing the message around natural gas and the energy transition; unlocking new and emerging market opportunities.

5. Energy justice
   Driving towards equitable energy solutions; promoting natural gas as a net zero transition fuel.

6. Next-generation energy solutions
   Investing in R&D for lower-carbon technologies; winning the race for young and diverse talent.
Over 300 Ministers, CEOs and Business Leaders confirmed to speak including:

- **Shri Hardeep Singh Puri**
  Honourable Minister of Petroleum and Natural Gas & Housing and Urban Affairs
  Government of India

- **His Excellency Timipre Sylva**
  Minister of State for Petroleum Resources and Chairman of Governing Council
  Federal Republic of Nigeria

- **His Excellency Tarek El Molla**
  Minister of Petroleum and Mineral Resources
  Egypt

- **His Excellency Arifin Tasrif**
  Minister of Petroleum and Mineral Resources
  Indonesia

- **His Excellency João Galamba**
  Deputy Minister and Secretary of State for Environment and Energy
  Portuguese Republic

- **His Excellency Ihsan Abdul Jabbar Ismail**
  Minister of Oil
  Iraq

- **Her Excellency Dr Monica Juma**
  Cabinet Secretary for Energy
  Kenya

- **Honourable Soda Zhemu**
  Minister of Energy and Power Development
  Zimbabwe

- **His Excellency Yonis Ali Guedi**
  Minister of Energy and Natural Resources
  Djibouti

- **Honourable Matthew Opoku Prempeh**
  Minister of Energy
  Republic of Ghana

As the industry transforms and progresses to net-zero, the Gastech Technical and Commercial Conference will showcase revolutionary next-generation solutions facilitating the energy transition.

The 180+ presentations featuring in the 2022 programme were selected on the basis of abstracts submitted in response to a call for papers. The Gastech Governing Body, a 60-member committee of highly experienced experts spanning the full energy value chain, assessed eligible submissions against specific criterion and advised on the best papers for inclusion.

Technical Conference
Discover cutting-edge innovations to ensure future resilience and sustainability

The Technical Conference showcases world-leading research, technological breakthroughs, on site energy solutions and project developments to bridge the gap between new knowledge and commercial application for the natural gas, LNG, hydrogen, and low-carbon solutions industries.

The 30 sessions provide unprecedented access to energy technologies and trends across carbon emissions, shipping and storage, hydrogen, gas processing, and energy end-users.

Commercial Conference
Your roadmap for delivering cleaner, greener energy for a practicable net zero transition

Featuring original peer-reviewed papers, the Commercial sessions are a forum for frontline executives to exchange best practices on how to deliver on the strategies set by energy ministers and global business leaders.

The series of 15 sessions will showcase new and regional projects and cover a variety of topics such as: market demand; market dynamics, including energy regulation, climate goals, and European gas features; LNG trading, energy transition strategy; carbon-neutral LNG, including methane and emissions intensity; environmental, social, and governance; and shipping.
Over 210 technical and commercial experts confirmed to speak including:

- **Jarand Rystad**
  Chief Executive Officer
  Rystad Energy

- **Priscilla Chandrasekaran**
  LNG Technology Program Manager
  Shell Projects and Technology

- **Byeongyong Yoo**
  Vice President
  Korea Shipbuilding & Offshore Engineering
  (KSOE; HHI Group)

- **Parveen Lawrence**
  Director - LNG Industry
  Siemens Process Systems Engineering

- **Molly Iliffe**
  Principal Consultant
  ERM

- **Tobias Eckardt**
  Global Technology Manager
  BASF SE

- **Monica Sanchez**
  Hydrogen Coordinator
  Enagas

- **Alessandro Romagnoli**
  Director
  Nanyang Technological University

- **Eric Morihat**
  Technical Director
  Technip Energies

- **Vanessa Turmel**
  LH2 Proposal Manager
  Air Liquide E&C France

- **Monica Sanchez**
  Hydrogen Coordinator
  Enagas
